## EXPERIENCE

### **ATG General Contracting, DFW — Sales Representative**

June 2020 - PRESENT

My job is to get out of the truck, knock on doors, and perform. I deliver high quality metal roofing, all over the metroplex. My responsibilities include training new employees, managing and maintaining customer relationships, and managing my own and my coworkers appointments.

### **Uber Eats, Fort Worth — Delivery Driver**

October 2019 - June 2020

### **Hoffbrau Steak & Grill House, Haltom City — Server**

April 2019 - October 2019

As a server, my primary job is to efficiently translate what the customer says they want into a system the kitchen can effectively comprehend. Responsibilities included managing cash, several groups of guests at a time, and creating a quality environment for the guest.

### **Tarrant County College, Hurst — Math Tutor**

August 2018 - May 2019

This work-study job allowed me to teach students at the TCC Math Lab. Here, I learned how to teach new concepts to people, and help them solve complex problems.

## EDUCATION

### **Tarrant County College, Tarrant County — Software Engineering**

August 2018 - October 2019, August 2022-Present

The first time I attended TCC I had no idea what I wanted to do, why I wanted to go to school, or what I wanted a degree for. I quit after achieving a 4.0 GPA in my first semester, and dropped out in October 2019. This year, I finally made the decision to go back and acquire the credits necessary to transfer to UTA to achieve a Bachelor's in Software Engineering. After working several years in sales, I have concluded I want a career in the technological industry, specifically in Software Engineering. Currently taking classes on only Tuesday and Thursday.

## SKILLS

Decision Making

Efficient Planning

Marketing & Sales
